MEMORANDUM FOR THE RECORD

SUBJECT: Comments from NFIB Meeting of Saturday, 19 March

1. Net assessments:

a. How do we avoid the parochialism if they are done inside of Defense.

b. Yet Defense doesn't want others meddling in their own force capabilities.

(1) It could be done in DoD - Andy Marshall - but he hasn't got the staff.

(2) It could be done at the NSC Staff - which is much more detailed than they normally get into.

(3) It could be done in the NIO organization - but then again it is far more detailed than they handle.

2. Veto policy:

a. How do you add something if they are deficient?

b. How do you shift resources around between agencies?

3. Co-locate the IC and the ASD(I)?

4. NIOs:

Keep small and leave the drafting within the Community. It leads to lots of involvement in lateral access.
